

# A Field Too Far?

**Is this a perfect example of over development?**

The grazing land between Westwood Close and the River Ems has been proposed by Havant Borough Council as a future housing site in the DRAFT Local Plan 2036, on page 179.

- *Havant Borough Council are asking for public comments on the latest draft of this document before the deadline on Friday 16 February (5.00 pm)*
- *The status of this field as a 'housing site' has not yet been established, but it will be if you do not object before Friday 16 February (5.00 pm)*

**Comment online, email, or write and you can save this historic footpath & field between Emsworth & Westbourne. Ask for 'Policy H10 to be removed' and the field to be added to "Policy E4 as a new 'Local Green Space'.**

Consultation Survey for the Draft Havant Borough Local Plan 2036

Emsworth

Land at Westwood Close, then key your comments into the three boxes.

***• This is not a 'strategic site. • This site is not required for housing as the Council has achieved its housing target and also has a buffer of over 200 houses.  
• This is an historic path connecting the two towns and has never been interfered with. • This field is a very important 'green corridor' beside a chalk stream running into Chichester harbour. • Housing so close to the River Ems cannot avoid polluting the river and the harbour.***

OR, Email your comments to: [policy.design@havant.gov.uk](mailto:policy.design@havant.gov.uk)

OR, Post your letter to: Local Plan Consultation, Planning Services,  
Havant Borough Council, Civic Centre Way, Havant, PO9 2AX
